and Chairman of the Board of Directors of the Public Authority for Industry
Khalifa Abdullah Al-Ajeel

ASIA Consulting for Administrative & Training Project Team Profile

The Reality of the Industrial Sector in the State of Kuwait 2025

Introduction

The project “*The Reality of the Industrial Sector in the State of Kuwait 2024*” is carried out by a specialized team of experts in economics, statistical analysis, and artificial intelligence. The distribution of roles and responsibilities ensures the highest standards of quality, precision, and reliability in industrial analysis and planning.

Project Leadership

Role	Name
Project Director	Dr. Ahmed Rashid Alsaber
Chief Economic Advisor	Prof. Nayef Al-Shammari

Assistant Consultants

Role	Name
Management Consultant	Dr. Faisal Al-Rasheed
Assistant Economic Consultant	Mr. Abdulqader Al-Ibrahim

Research Support Team

Role	Name
Research Assistant 1	Ms. Amal Anbar
Research Assistant 2	Ms. Huda Khraiss
Report Design	Ms. Razan Lebdeh & Mrs Hadeel Al-Nashash

Acknowledgment and Appreciation

The Industrial Sector Status in the State of Kuwait Project Team extends its sincere thanks and deep appreciation to His Excellency Mr. Khalifa Abdullah Al-Ajeel Al-Askar, Minister of Commerce and Industry and Chairman of the Board of Directors of the Public Authority for Industry, for his continuous support of the industrial sector and industrialists, and to all employees of the Authority for their dedicated efforts.

The team also expresses special gratitude to Mr. Shamlan Hamoud Al-Jahidli, Acting Director General of the Public Authority for Industry, in recognition of his distinguished leadership and valuable guidance, which served as a source of motivation and inspiration for continued achievement.

The project team from the Public Authority for Industry - Industrial Planning Department, consisting of the following members, also extends its appreciation:

Eng. Bashaer Ibrahim Al-Khamees - Acting Director of Industrial Planning Department

Eng. Haya Ahmed Al-Buhairi - Senior Industrial Engineer

Eng. Suad Abdullah Al-Mansour - Senior Industrial Engineer

Eng. Amna Khaled Al-Dahash - Senior Industrial Engineer

Eng. Anan Yaqoub Al-Hajri - Senior Industrial Engineer

Ms. Rafa Muhasien Al-Mutairi - Industrial Researcher

Mr. Mohammed Abdulhameed Hawshan - Senior University Specialist

The team expresses its sincere gratitude to all industrial institutions operating within the industrial sector that collaborated with the project team and generously contributed by providing the data and information necessary for preparing the Industrial Sector Status Project for the State of Kuwait.

It is our hope that this report will serve as a comprehensive and essential reference for all stakeholders and those interested in the industrial sector in Kuwait. The valuable and inclusive data and insights it contains will, we believe, contribute meaningfully to supporting and advancing the country’s industrial development journey.

Director General's Message

Industrial development is considered one of the essential pillars of progress in any country. The importance of industry has grown significantly in the modern era, especially for the State of Kuwait, which is diligently striving toward a unified vision for a prosperous and sustainable future. Based on this national direction toward developing and strengthening local industries through all available means and resources, the Public Authority for Industry (PAI) has adopted, as part of its executive programs, the Project on the Status of the Industrial Sector in the State of Kuwait.

This project involves analyzing statistical and economic data derived from the field industrial survey conducted by the Authority. The goal is to provide the necessary industrial indicators and information to policymakers and decision-makers, enabling them to design suitable strategies and make informed decisions for the development of the industrial sector.

These indicators and data represent the first step in setting long-term strategies that will serve as the foundation for numerous strategic decisions in the industrial sector in the future. This initiative will also guide industrial investment trends and attract targeted sectors toward industrial activities, thereby expanding the industrial base and increasing the sector's relative contribution to the Gross Domestic Product (GDP).

As Kuwaitis and officials, we bear the responsibility to continue the work initiated by our founding fathers who built an industrial foundation that we are all proud of. The State of Kuwait is well-positioned to become a true industrial and commercial hub on the ground in coordination with relevant government entities through the implementation of financial, trade, and industrial cooperation programs aimed at building a New Kuwait 2035, founded on the diversification of income sources and the reduction of dependence on oil as the sole and primary source of national revenue.

We take pride in presenting to you this comprehensive report of information and analytical indicators derived from the analysis of the industrial survey data. This report contributes to shaping Kuwait's future industrial vision, identifying areas of strength, and addressing weaknesses that can be improved in the coming years.

We hope that this report serves as your gateway to explore new horizons and to build a bright industrial future inspired by the visionary leadership and guidance of His Highness the Amir of the State of Kuwait, Sheikh Mishal Al-Ahmad Al-Jaber Al-Sabah, and His Highness the Crown Prince, Sheikh Sabah Khaled Al-Hamad Al-Sabah, may God protect and bless them.

We also pray that this publication will serve as a sincere contribution that assists those responsible for development planning and for promoting and advancing national industry in the State of Kuwait in alignment with the government's development plan under the leadership of His Highness the Prime Minister, Sheikh Ahmad Abdullah Al-Ahmad Al-Sabah, and with the support and encouragement of His Excellency the Minister of Commerce and Industry, Mr. Khalifa Abdullah Al-Ajeel, as well as the engagement of both public and private institutions in achieving sustainable development.

Engineer Shamlan Hamoud Al-Juhaidli
Acting Director General
Public Authority for Industry
